TECHNICALLY SUPERIOR
SURFACES FOR
EFFORTLESS LIVING

GLAZED VITRIFIED TILES

TILE BODY

The finest quality raw materials make up the resilient and robust tile body of our tiles. The raw materials are ethically sourced and sustainably processed.

ENGOBE LAYER

A highly opacious, fusible, and permeable engobe layer makes the second layer of the tiles of Our. The layer makes the tiles highly resistant to water absorption for longevity.

GLAZE LAYER

A high-quality glaze coating is added to the engobe layer of the Our tiles giving the tile properties of texture and shine and making them ready for design and color.

HIGH PIGMENT DIGITAL PRINTING INK

The our surfaces get their unique and versatile properties of the design, color, and more in this stage where digital printing is done on the glaze with high pigment ink for excellent results.

ABRASION-RESISTANT GLAZE LAYER

The most exceptional aspect of Our surfaces is their high abrasion-resistant glaze layer which protects the tile's aesthetics, and properties and enhances the functionality of the tiles to a greater extent.

800 x
1600 mm
SIZE

The colossal 800x1600mm of the collection is an ode of eminence, elegance, and magnificence that adds a majestic aura to your spaces transforming them into fascinating and truly lavish.
